A family owned, employee friendly company dedicated to providing care and treatment to all patients it serves. In business since 1942, we have grown from a single ambulance service to 5 fully staffed paramedic units covering the central and western parts of Madera County. We run over 13,000 calls per year, most being Emergency 911 calls, along with inter-facility transfers and Community Events standbys. We are interested in paramedics that are well trained, confident, patient friendly, and able to work in an environment where they can use their paramedic training, intuition and judgement, do what is right and just, without need for constant micro management. We have well maintained ambulances, new Stryker Power Pro gurneys, and Zoll X-Series 12 Lead Cardiac Heart monitors.

All units are staffed with one Paramedic and one EMT. We have an aggressive protocol system in place under the Central California EMS Agency. Generally, have BLS first responders in most areas, but the Paramedic is the only ALS first responder that is transport capable. Can often have long transport times to Fresno/Merced county hospitals, allowing paramedic to fully evaluate, treat, and care for their patients allowing them to fully use their treatment protocols.
